PROGRESSIVE JAZZ FUSION / DEBUT SINGLE / APRIL 2026

Fractals

Fractals is the debut single from pianist and composer Suhas, a progressive jazz fusion track built on interlocking piano figures that fold and evolve with each pass. The single features three-time Grammy-nominated bassist Ric Fierabracci (Chick Corea Elektrik Band, Blood Sweat and Tears) and drummer Marco Minnemann (The Aristocrats, Joe Satriani, Steven Wilson).

The track pairs composed structure with improvisation, giving each musician room to respond in real time. Fierabracci's bass provides a melodic and harmonic center while Minnemann's drumming pushes against the composition's boundaries, shifting meter and feel without losing the groove.

Fractals will be available on all major streaming platforms including Spotify, Apple Music, YouTube Music, and Tidal. The single is the first release from a larger body of work currently in production.

ARTIST QUOTE

> "Fractals came from wanting to write something that sounds different every time you hear it. The same passage can feel completely new depending on where your ear goes. Having Ric and Marco on this was unreal - they brought exactly the kind of energy and conversation I was hoping for."

> **-- Suhas**

PIANO / COMPOSER

Suhas

Suhas is a pianist and composer whose music sits at the intersection of jazz harmony, classical structure, and progressive fusion. His compositions balance precision with spontaneity, built to reward close listening.

He learned to play by ear before formal training, spending years developing his compositional approach on his own terms. For Suhas, the piano is both a melodic voice and a structural tool.

Fractals is the first single from a larger project currently in production. The release marks his debut as a recording artist and composer in the progressive jazz fusion space.

Collaborators

BASS GUITAR / FEATURED

Ric Fierabracci

Three-time Grammy-nominated bassist. Over 30 years of touring and session work with Chick Corea's Elektrik Band, Billy Cobham, Blood Sweat and Tears, Dave Weckl, Joe Satriani, and Yanni.

His bass on Fractals provides a melodic and harmonic anchor that lets the composition's layered structures breathe.

CHICK COREA ELEKTRIK BAND / BLOOD SWEAT & TEARS / YANNI / JOE SATRIANI

DRUMS / FEATURED

Marco Minnemann

German multi-instrumentalist and one of the most technically advanced drummers working today. Member of The Aristocrats with Guthrie Govan and Bryan Beller. Toured and recorded with Joe Satriani, Steven Wilson, Paul Gilbert, and Adrian Belew.

His drumming on Fractals treats rhythm as a compositional voice.

THE ARISTOCRATS / JOE SATRIANI / STEVEN WILSON /

WHY THIS RELEASE MATTERS

A New Voice in Progressive Fusion

Progressive jazz fusion has a deep lineage, from Mahavishnu Orchestra and Return to Forever through to modern artists like Tigran Hamasyan and Snarky Puppy. Fractals enters that conversation with a distinct voice: an emerging composer paired with world-class instrumentalists whose combined credits span the most significant recordings in the genre.

Fractals is a deliberately composed debut that puts compositional vision front and center. Fierabracci and Minnemann were chosen because their musical vocabularies are essential to how the piece speaks.

KEY ANGLES FOR COVERAGE

+ Debut single featuring three-time Grammy-nominated bassist Ric Fierabracci
+ Drumming by Marco Minnemann (The Aristocrats, Joe Satriani, Steven Wilson)
+ Progressive jazz fusion with composed structure and live improvisation
+ Available on Spotify, Apple Music, YouTube Music, and all streaming platforms

WHAT'S NEXT

Fractals is the lead single from a larger project currently in production. Additional singles featuring further collaborations are planned for later in 2026, with a full release to follow. Live performance dates and music video content are in development.
